PROFESSIONAL EXPERIENCE

Fullstack Web Developer Internship | December 2024 – February 2025
Dunia Coding

- Developed and enhanced web applications using Laravel (backend) and Nuxt.js (frontend).
- Collaborated in building new features and improving existing systems to optimize user experience.
- Integrated API endpoints with the frontend, ensuring seamless data retrieval and interaction.
- Optimized UI performance and ensured smooth rendering using Vue.js, Tailwind CSS, and best coding practices.

EDUCATION

Yogyakarta University of Technology | 2021 – Now
Bachelor of Informatics

- GPA: 3.68
- Published Research Paper in JINTEKS

PROJECTS

Task Management App | 2025
Features:

- Enables managers to manage data and organize tasks via a web platform.
- Allows team members to view and complete assigned tasks on a mobile app.

Tech: ReactJS, React Native, Ant Design, ExpressJS, MongoDB

Employee Attendance App | 2024
Features:

- Streamlines employee attendance tracking digitally.
- Monitors and manages attendance records.
- Allows managers to view and oversee employees' attendance data efficiently.

Tech: ReactJS, React Native, CSS, ExpressJS, MongoDB

Cooperative Financial Management App | 2024
Features:

- Web platform for administrators to manage financial transactions (income, expenses, and loans).
- Enables admin to add and oversee member data and generate financial reports.
- Mobile app for members to view their individual transaction history and loan records.

Tech: ReactJS, React Native, TailwindCSS, ExpressJS, MongoDB
